Certification and Mentoring in Coaching and IA, AITI
Course hours: 16
On-line
Languages: English and Portuguese
Pre-requisite: Certification in Coaching minimum level Fundamental Coaching Skills, ICI or equivalent, approved by the trainers.

The qualification for "Certification and Mentoring in Coaching and IA, AITI" is accredited by the Associations for Artificial Intelligence, AITI). The member of the AITI Institute – Arline Davis Institute has developed the curriculum and has the sole right to deliver the training and to seal entitled participants, with an AITI seal.

Institutes and trainers that desire to deliver this training may create a licensing agreement with the Arline Davis Institute and receive training and mentoring for this content delivery.

About this training:

Boost your coaching results with AI Coaching mentoring from Arline Davis and Walmir Costa! In this certification and mentoring program, you will learn from Arline Davis, a Master Coach with 30 years of experience and President in Brazil and the USA of the International Association of Coaching Institutes (ICI) and Walmir Costa, COO of the Arline Davis Institute with a 40-year career in Information and Communication Technology. Since the explosive arrival of Generative AI, Arline and Walmir have worked to carry out a digital transformation in their work as Coaches.

Do you want to take advantage of the incredible opportunity of artificial intelligence to increase your productivity and enhance your coaching skills? In 8 2-hour interactive sessions, Arline and Walmir will guide you step-by-step in installing, using, and evaluating AI chatbots to complement your work. You will be empowered to incorporate AI tools into existing workflows, freeing up your time to focus on what really matters: meaningful human connections.

Learning Goals:

By the end of this mentoring program, you will be able to effectively leverage AI tools to enhance your coaching practice. Through interactive workshops and hands-on activities, you will gain the knowledge, skills, and mindset to:

- Understand the capabilities and limitations of AI in coaching contexts
- Strategically select and implement the best AI chatbots for your specific needs
- Communicate with chatbots using clear, effective prompting
- Integrate AI workflows to automate administrative tasks, freeing you to focus on coaching clients
- Analyze chatbot data for insights to refine strategies and maximize impact

- Evaluate AI output to ensure alignment with your coaching philosophy
- Apply ethics, best practices, and human oversight when using AI tools
- Create an ongoing plan to incrementally adopt AI technologies in your coaching practice

The program provides impactful learning experiences to develop your capabilities in leveraging AI as a coaching enhancement tool. You'll stay ahead of the curve and elevate your coaching through strategic AI integration.

The Arline Davis Institute has decades of experience designing international certification programs, as an institute specialized in understanding how to maximize learning. Join us on this journey along the rapidly expanding frontier of AI in coaching. You will develop a future-oriented mindset and practical skills for integrating AI into your work today, positioning yourself at the forefront of this growing trend. The mentoring of the Arline Davis and Walmir Costa duo is the perfect place to begin creating an even greater impact as a Coach.

Welcome to you who joins us on this learning journey! We will support you with our experience in Coaching and technology to ensure progress. You will not need to waste time doing so much research or pull your hair out trying to learn technical details, as we have gone through the hard lessons and are willing to lend a hand. Count on us for 8 weekly sessions full of learning, where there will be reinforcement of Coaching practices, with Artificial Intelligence as co-pilot. Let's go!

Course Content:

Session 1 - Introduction to AI in coaching, principles and ethics
Session 2 - Choosing and installing your ideal AI chatbot
Session 3 - Training your chatbot in basic conversation
Session 4 - Customizing your chatbot for your niche
Session 5 - Integrating your chatbot into workflows and automating tasks
Session 6 - Data analysis and insights with your chatbot
Session 7 - Case studies and intervision with group participants
Session 8 - Planning ongoing AI integration and action planning

You'll be empowered to incorporate AI tools into your coaching practice, freeing you to focus on meaningful human connections.

The Arline Davis Institute offers decades of experience designing impactful learning programs. Join us on the leading edge of AI in coaching. Develop future-ready skills to integrate AI today.

Our experienced guidance will accelerate your AI learning curve. Let's embark on this journey to create even greater impact as a coach!
